

Fall Gold Raspberry

Rubus idaeus var. strigosus

The berries of this yellow everbearing variety are sweet, large, juicy and firm. The plant's winter hardiness makes it a good choice for northern gardens. It is a vigorous grower.

Ripens: July and September in warmer areas and late spring and July-August right up to a hard frost in cold areas.

Cold hardy to
U.S.D.A. Zone 4.

Since 1944
